p. 85   *Commands at top of screen or in LIMA are*
not processed unless ENTER is hit

27   *Arrows move cursor up/down/left/right*
SHIFT up-arrow goes to command line
SHIFT down-arrow goes to next line
SHIFT left-arrow goes to left margin
*   or into LIMA (only way to LIMA)*
SHIFT right-arrow goes to end of line
*   or to next line if at end line.*

88   *The "CLEAR" key is NEWSCRIPT's CONTROL*
key. It may be held down or touched once
for a one-stroke lock. While active, these keys
do this:

33	B	Back-scroll one screen
30	D	Delete character at cursor
33	E	go to End of file
33	F	Forward-scroll one screen
88	H	show the HELP menu
30	I	toggle Insert-char. mode
33	N	move screen to Next line
88	P	toggle Playback of tape
34	S	Save file to disk
33	T	go to Top of file
33	U	move screen Up one line
30	W	delete Word at cursor
88	X	perform current X command
88	Y	perform current Y command
88	/	re-execute last "LOCATE"
88	→	move screen 20 to the right *(see*
88	←	move screen 20 to the left *"HO")*
88	BREAK - break line at cursor	
88	SPACE - blank line from cursor	
88	↑	displays the left bracket
		(Model 3, or up-arrow Model l)
89	124578 toggle screen graphics blocks	

29 *Shift-zero toggles lower-case.*

89 *SHIFT-CLEAR, followed by any of:*

89   r   toggles auto-Repeat of keys

89   p   does a screen Print

90   v   routes most Video to printer
          as well as to video

90   01-ff hexadecimal values
  minus gives an underscore
  arrows, shifted arrows give special
        characters (experiment!)

*To cancel CLEAR or SHIFT-CLEAR, just
hit same key(s) a second time.*

CANCELLING ERRORS
(all on command line)

122 Whoops   discards changes on screen

116 QUit   discards changes in memory

SCREEN MOVEMENT
(SCROLLING COMMANDS)

98 Back	119 Up	119 Top	120 View *n,n*
107 Forward	103 Down	98 BOttom	120 View ± *n*
	115 Next		120 View *
			110 HOrizontal *n*

91 .A   .B   .C

SEARCHING FOR TEXT (WITHIN LINES)

113	Locate	/string/
113	/string	short for 'locate'
113	-string	short for 'locate-not'
106	FInd text	column-dependent search
124	Zone *n,n*	restrict search columns
109	GRid ON/OFF	column marker aid
114	Locate UP	/string/

BLOCK MANIPULATION
(FULL LINES ONLY)

114 Move .B	101 COpy .B	102 DElete .B
114 Move .C	101 COpy .C	104 DString/to here/
111 Join	111 Join b	

CHANGING TEXT GLOBALLY

99	Change	/string1/string2/ n * #
96	Alter	/c/a/ n * (char/ascii)
117	Replace	line-of-text
98	BReak	/line at this string/
106	FLow	ON or OFF for autosplit

INSERTING LINES OF TEXT

111	I	line-of-text
111	I	(gives 12 new lines)
118	STring *n*,c	('n' occurrences of 'c')

DELETING LINES OF TEXT

102	DElete *n*	delete 'n' lines
104	DString	/from cursor to here/
102	DElete .B	(block .A thru .B)

FILES ('n' stands for a number)

117	SAve		104	END		103	DIR	*n*
117	SAve fileid		104	END fileid		112	KILL	id
117	SAve :*n*		116	QUit		115	NAme	id
108	GET fileid		102	DBlanks		97	AUto	*n*
115	PUT fileid							

MACROS (Commands that use other cmnds)

122-123	X, Y, XY	
125	=	repeat last command
125	?	re-display last command
125	&	execute and retain this command

STATUS OF THE EDITOR AND TEXT

107	FRee	110	HArdcopy	120	View
112	LEngth	115	NAme	97	AUto

91   LIMA (access via SHIFT left-arrow)

D*n*	delete 'n' lines
I*n*	inserts 'n' blank lines
R*n*	repeats line 'n' times
/	moves line to top of screen
.A .B .C	three named points

p. 49 MARGINS

129	.AD 5	left margin adjustment
149	.LL 65	line length (1/10 inches)
		(the right margin is whatever is
		leftover after adding .AD + .LL)
150	.LM 6	left margin (same as .AD)
172	.TM 6	top margin (# lines)
131	.BM 6	bottom margin
154	.PL 66	page length (# lines)
		(the body of the text is PL-TM-BM)
142	.HS 1	heading space for title
140	.HM 1	heading margin below title
140	.FS 1	footing space for title
138	.FM 1	footing margin above title
151	.LS *n*	logo space on first page

52 RIGHT JUSTIFICATION

147	.JU ON	justify (ON, OFF, RIGHT)
135	.CO ON	combine lines (ON, OFF)
139	.FO ON	(JU and CO: ON or OFF)

50 INDENTATION

145	.IN 0	indent (1/10 inches)
140	.HI 0	automatic hanging indent
152	.OF 0	manual offset (like .HI)
157	.PT *n*	point/paragraph numbering
134	.CE 1	center (ON, OFF, or '*n*')
155	.PP 3,2,5,0	start new paragraph**
169	.TB & 1,5,10	tab column settings**

54 PITCH, FONT, AND TYPEFACE

130	.BF 10	begin font (10, 12, 16, 737)
164	.SD 1,0	microspacing controls
172	.TR fileid	disk-resident width table

82 MINI-EDIT MODE (nothing saved to disk)

-enter-		use current line as-is
D		delete current line
R	text	replace current line
I	text	insert text above line
T		terminate mini-edit mode

TITLES (all have/left/center/right/)

174	.TT	/1/c/r/	top title**
132	.BT		bottom title**
153	.OT		odd-page top title**
138	.ET		even-page top title**
151	.OB		odd-page bottom title**
137	.EB		even-page bottom title**
156	.PS	$	page number symbol in title
155	.PN	ON	auto page number (ON, OFF)

SPACING BETWEEN LINES

167	.SP	1	space 'n' lines, always
167	.SK	1	space 'n' lines if not at top
153	.PA	n	start new page, 'n' optional
131	.BR		start new print line
135	.CP	n	conditional new page
137	.DS		start double spacing
168	.SS		start single-spacing
166	.SH	±n	half-space lines (- up)
149	.LI	n	lines per inch (6 or 8)

FILES

129	.AP	fileid	append/switch to 'fileid'**
143	.IM	fileid	imbed 'fileid' into text**
158	.RD	c,file	read N&A into form letters**
168	.ST	msg	stop to change disk/wheel**
171	.TC	text	table of contents entry**
146	.IX	text	index entry**

MISCELLANEOUS

135	.CM	msg	comment (not printed)**
136	.DA	0,1,2,3	darkness (boldface lines)
137	.ES	!	redefine escape character
142	.HY	`	conditional hypenation
148	.KE		keyboard entry of text**
172	.TR	i,j,k	translate char. values
176	.US	text	underscore 'text'**

these control words must be last on a line.
Additional ones are ignored.

ESCAPE SEQUENCES WITHIN TEXT[†]

58			
59	!$	!%	start/stop underlining
59	!(	!)	start/stop double-width
67	!/	!?	start/stop italics
67	!*	!:	start/stop boldface
67	!+		forward 1/2 space (subscript)
67	!−		backward 1/2 space (superscript)
67	!=		cancel sub/superscripts†
67	!<		backspace 1 position
67	!>		pause printer here

(†escape sequences are printer-
independent, but not all of
them work with all printers)

RUN-TIME OPTIONS

128.1

V	output only to Video
ST	stop at end of each page
ED	activate mini-edit mode
PG	specify range of pages to print
DS	double-space all printing
TS	triple-space all printing
CC	number of multiple copies
ID	print each fileid in margin
DA	print all lines dark (boldface)
NU	number all lines in left margin
TC	only print Table of Contents
NT	ignore ".TC" and ".IX" entries
NA	ignore ".AP" (no append)
PA	number to place on first page

OTHER SCRIPT FACILITIES

44 Several control words can go on one line if separated by semi-colons, subject to restrictions of words that must be last on the line

20 To display the Directory when asked for a Filename, reply question mark and a number, such as: ?1

62 To interrupt printing, press ENTER. To pause Video output: SHIFT@ (Press any key to resume)
